

Offset Printed

PACKAGING

About Us

Smart. Stylish. Sustainable.

At Europe Packaging, we design and manufacture premium printed packaging that delivers both function and impact. From custom-fit ecommerce boxes to retail-ready displays and luxury gift packaging, our solutions are engineered to protect, present, and elevate your products.

We specialize in two core packaging formats **offset printed folding cartons** and **corrugated laminated boxes**, offering full in-house production and design services. To complement these, we also offer **custom inserts** and **displays**. Each box is crafted to meet your brand's aesthetic and technical needs—from the structural design to the finishing details.

Our **modern 10,000 m² production facility** is optimized for end-to-end packaging manufacturing. With fully integrated operations—printing, die-cutting, laminating, gluing, quality control—we manage your packaging from concept to shipment with speed and precision.

About Us

Who We Work With

We support companies across a wide range of industries, including:

- Automotive Spare Parts
- Cosmetics & Personal Care
- E-Commerce & Logistics
- Home Goods & Kitchenware
- Gifting & Seasonal Occasions
- Beverage
- Food & Take Away Products
- Inflight Service

From small promotional runs to large-scale, recurring orders—we're built for flexibility

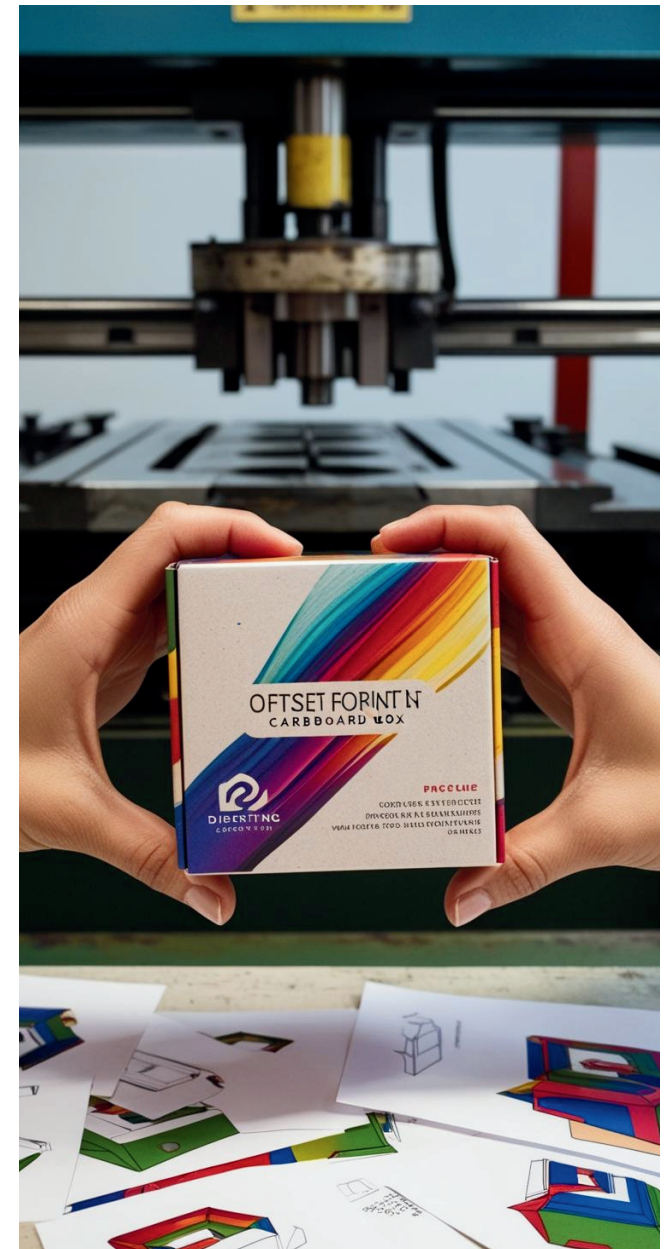

What We Do

Premium printed packaging—engineered to protect, styled to impress.

We design and manufacture a full range of offset and flexo printed packaging solutions, including:

- Printed corrugated boxes
- Folding cartons & sleeves
- Custom inserts & fitments
- Displays

Our Products Types

We produce custom-made packaging solutions that are both functional and visually compelling for various sectors such as automotive, cosmetics, kitchenware, retail, e-commerce, and beverages.

Our production capabilities include following types:

- Full range of FEFCO box solutions in both corrugated and folding carton
- Shelf-ready packaging for direct placement on the store shelf
- Shipping packaging for logistics and e-commerce
- Displays that offer visibility and protection
- Inlays and compartments for safe and organized product presentation
- Embossing Advent calendars for seasonal promotions or brand activations
- Gift boxes with premium finishes such as foil, soft-touch or embossing

Each package is fully tailored to your product, brand, and application—from structure to finish.

Markets we Serve

Industry Expertise

Packaging must perform across many industries, each with unique operational and branding requirements. Europe Packaging develops corrugated and folding carton solutions designed to protect products, support logistics, and enhance presentation across diverse sectors including industrial, retail and food applications.

From heavy automotive components and fragile kitchenware to ready meals, beverage gift sets, and inflight catering, our packaging balances strength, efficiency, and visual impact. Every solution is engineered to match product, supply chain, and branding needs—helping customers protect products while strengthening their presence in competitive markets.

Printed Corrugated Boxes

Durable protection with premium print quality using flexo or offset printing. Our printed corrugated boxes provide excellent strength while maintaining strong visual appeal. They are ideal for products that require extra durability during storage and transportation without compromising branding — especially for e-commerce shipments and heavy goods.

Produced by laminating offset-printed sheets onto corrugated board, offset laminated boxes combine the rigidity of corrugated packaging with vivid print quality and sharp graphics. Additional features such as internal fitments, handle cut-outs, or tear strips can also be added to meet shipping and branding needs.

Why Choose Corrugated Boxes?

- Superior Print Quality
- High Structural Strength
- Professional Brand Image
- Reliable Shipping Performance
- Design Flexibility

Where They Perform Best?

- E-commerce & direct-to-consumer packaging
- Automotive spare parts & components
- Kitchenware & home appliances
- Industrial and logistics packaging
- Promotional and high-value retail products

Material & Configuration

- E-flute: Premium look, compact packaging
- B-flute & EB-flute: For heavier products and stronger stacking
- Lamination options on E, B, F, BC, or EB flute depending on thickness needs
- Balanced for protection and print quality

Packaging Solutions

Why Choose Corrugated Boxes?

- Lightweight and cost-efficient
- Excellent print surface for premium branding
- Easy assembly
- Wide range of finishing options

Where They Perform Best?

- Cosmetics & personal care
- Food & confectionery
- Pharmaceuticals & supplements
- Gift items & promotional products
- Retail-ready packaging and product launches

Material & Sustainability

- High-quality carton board options (various grammages)
- FSC®-certified and fully recyclable materials available
- Suitable for food-contact applications (upon request)
- Designed for minimal material waste

Folding Cartons & Sleeves

Lightweight, cost-effective, and ideal for impactful branding, our folding cartons and sleeves offer a highly versatile packaging solution for a wide range of products. From cosmetics and personal care items to gourmet foods and specialty retail goods, these packaging formats provide both functionality and visual appeal.

Produced using high-quality offset printing and enhanced with premium finishing options such as embossing, foil stamping, spot UV, and soft-touch coatings, these cartons transform ordinary packaging into a memorable brand experience. They help products stand out on crowded retail shelves while reinforcing a brand's premium image and attention to detail.

Custom Cardboard Displays

Visibility at the point of sale is crucial. With our custom- made cardboard displays, you can present your brand in a striking, practical, and sustainable way. Whether it's a counter display, floor display, or shelf display – we design displays that fully align with your product, brand experience, and sales objectives.

Our in-house design department collaborates with you every step of the way: from the creative concept to the technical implementation. We consider shape, volume, strength, and ease of use. All displays are offset printed in high quality and optionally equipped with luxury finishes such as spot UV, foil stamping, or laminate.

Packaging Solutions

Retail Display Packaging

Packaging is more than just protection – it's an essential marketing tool. Our retail display packaging combines presentation with functionality and literally puts your product in the spotlight. This packaging is ideal for use on shop floors, shelves, or promotional campaigns.

We offer various display solutions: from foldable box constructions to complete POS displays. Each design is tailored to your product and logistics needs, so you not only make an impression in-store but also package and transport efficiently.

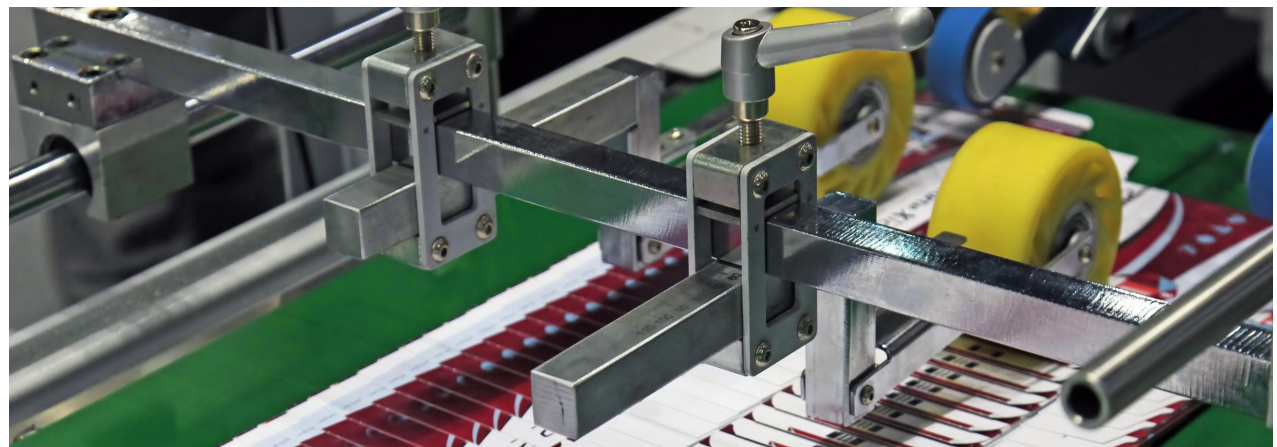

Finishing Techniques

We offer a wide range of premium finishing options to elevate your brand and product appearance:

- Gloss/Matte Laminate – Smooth, protective finish
- Soft-Touch Laminate – Velvety-soft, luxurious feel
- Foil Stamping – Accents in gold, silver, or a color of your choice
- Embossing/Rotary Stamping – Raised or recessed elements for tactile branding
- Spot UV– Selective gloss and contrast for visual impact
- Die-Cut Windows – Partial product visibility
- Interior Printing – Surprise with a striking interior design
- Custom Colors – Pantone or brand-specific color matching
- Adhesive Strip – For user-friendly and quick closure (e.g., e-commerce)
- Tear Strip – For easy, tool-free opening
- Perforation – Functional or decorative, for easy opening or tearing
- Variable Height Score Lines – Flexibility in fold height for different product sizes

Each package is fully tailored to your product, brand, and application—from structure to finish.

Sustainability

Sustainability as a foundation

At Europe Packaging, sustainability is not a trend, but an integral part of our daily working methods.

Environmentally friendly materials

We use recyclable materials wherever possible – without compromising on quality or appearance.

Efficient Production

Our production is designed for minimal waste, optimal material use, and energy-efficient processes.

Lower emissions, higher impact

By optimizing transport and eliminating unnecessary packaging, we help reduce your ecological footprint without compromising your appearance.

Designed for recycling

We avoid plastic coatings and laminates wherever possible, so our packaging is easy to recycle and reuse.

Let's spread sustainability together – one box at a time!

Quality Commitment

Quality management is a strategic item that is participatory and a lifestyle in Europe Packaging. Our main principle is to be respectful of the community and environment. The customer is the focal point for our quality policy. ISO 9001, ISO 45001, ISO 22000 and ISO 14001 standards are written, a well-defined quality policy communicated and understood within Europe Packaging.

Europe Packaging places customer requirements and satisfaction at the center of all quality activities. All processes are designed to understand, meet, and where possible exceed customer expectations regarding product performance, consistency, delivery time, and service quality. Customer feedback, complaints, and improvement requests are systematically analyzed and transformed into corrective and preventive actions. This ensures long-term customer trust

Our Core Values

Ethical Commitment

One of the most important values at Europe Packaging B.V. is ethical operations, with respect for people, products, and origins.

We value open and honest relationships with all our customers, suppliers, and employees - regardless of race, religion, or origin.

We are fully committed to serving our markets with the highest quality products and services and use only certified materials that contribute to the sustainability of our planet.

We strive to meet market demand and remain committed to delivering top quality to all our customers.
